ColorHunter with Smart Dual-Light

Smart IR & Color Switching, Dual-way Communication

Guard your safety quietly
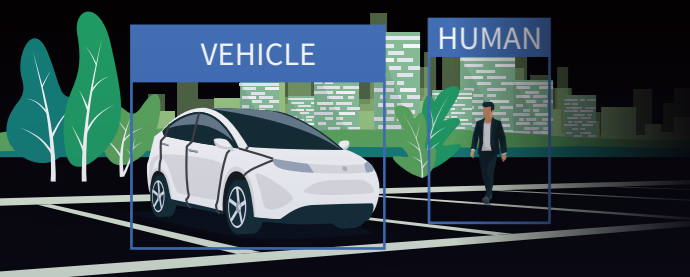

Don't worry about power consumption and light pollution.

EasyStar Smart Dual-light series cameras will quietly guard your safety and they won't disturb your daily life. They only turn on the warm light when detecting people or vehicles.

Detect intruders in real time

EasyStar Smart Dual-light series IP cameras are equipped with intelligent infrared, warm light and ultra motion detection(UMD) function, which can accurately detect people and vehicles.

In smart dual-light mode, the infrared light is always on, providing invisible protection. When people and vehicles intrude, the warm light will be turned on immediately. Thanks to the built-in mic and speaker, you can communicate with them.
